13:00 – 15:00 (120')	STEM Alliance General Assembly (closed session)

#STEM_Label_HLE20

STEM SCHOOL LABEL HIGH LEVEL EVENT ORGANISERS

The STEM School Label is a joint initiative of European Schoolnet, Ciência Viva (Portugal), Maison pour la science en Alsace (France), the Center for the Promotion of Science (Serbia) and the Education Development Centre (Lithuania). With the STEM School Label, school representatives are able to evaluate their school via an online self-assessment tool, according to criteria defining a STEM School. This self-assessment tool identifies areas that require development and provides training and resources for its participating schools, with the aim of improving their activities in the fields of STEM at the school level.

STEM School Label is Co-funded by the Erasmus+ Programme of the European Union (Grant Agreement N. 2017-1-BE02-KA201-034748). The content of this promotional material is the sole responsibility of the organizer and it does not represent the opinion of the European Commission (EC), and the EC is not responsible for any use that might be made of information contained.

The STEM Alliance brings together industries, Ministries of Education and education stakeholders to promote Science, Technology, Engineering and Mathematics education and careers to young Europeans and address anticipated future skills gaps within the European Union. The STEM Alliance builds on the success of the EU-funded inGenious initiative (2011-2014) to increase the links between STEM education and careers, by involving schools throughout Europe.

COORDINATOR

PREMIUM PARTNERS

GENERAL PARTNERS

Scientix, the Community for Science Education in Europe, promotes and supports a Europe-wide collaboration among STEM (science, technology, engineering and maths) teachers, education researchers, policymakers and other STEM education professionals. Scientix has been running since 2010 organizing teacher-training activities, dissemination conferences and events, and supporting the exchange of knowledge and experiences in STEM Education via its portal, publications and events.

The work presented in this publication has received funding from the European Union's H2020 research and innovation programme - project Scientix 4, coordinated by European Schoolnet. The content of this publication is the sole responsibility of the organiser and it does not represent the opinion of the European Commission, and the European Commission is not responsible for any use that might be made of information contained.
